18/01/2022 20:47	Bail - Representations	Sgt 37 1892 DOVE	<p>Application for bail by Suffolk interviewing officer on behalf of Sussex police.</p> <p>BRIEF CIRCUMSTANCES OF OFFENCE(S): Suspect arrested on suspicion of indecent assault, this is a non recent allegation where the complainant is his daughter Melissa. She is now 27 and alleges he touched her vagina when she was three years old. After many years without contact, Facebook messages were exchanged in 2019/2020, the allegation was not discussed explicitly but inferred and suspect became very hostile and abusive towards complainant and her sister Zoe. It was also clear from the messages seen by police that he blames her mother Sandra for the allegation. Complainant was encouraged to report to police by her partner, suspect was not aware of police involvement prior to arrest.</p> <p>SAFEGUARDING RISK ASSESSMENT: (Explain what control measures will be put in place if bail conditions are being proposed and why they could not be enforced without any such conditions, consider why authorisation by Inspector is necessary and proportionate) Bail conditions considered necessary and proportionate to prevent intimidation of complainant and witnesses. Suspect is aware of the address of complainant's mother as she still lives at the address where the offence is alleged to have occurred. He has contact details for his daughters. Recent reports from Suffolk highlight concerns over his mental health and demonstrate his propensity to act aggressively and bombard people with messages. Complainant and witnesses will contact police if conditions are breached. 1) Not to contact directly or indirectly Melissa, Zoe or Sandra KNOWLES 2) Not to enter Crawley, West Sussex 3) To notify police immediately of any change of residence</p> <p>SUSPECT/SOLICITOR REPRESENTATIONS: (include date and how Suspect/Solicitor contacted) Suspect: Michael Burdette-Deakin – None Solicitor: Christian Bridge – None</p> <p>OFFICER COMMENTS: detail enquiries to be undertaken and anticipated completion dates, grounds for bail, detail consideration given to alternatives to bail and reasons why discounted – the presumption is that all suspects will be released without bail) Suspcct devices, if any scizcd, to be assessed for forensic examination post interview Third party material to be completed. RUI has been considered, not believed appropriate in this case due to seriousness of offence, and reasonable concerns that suspect will contact and intimidate vulnerable wtnesses if conditions are not in place. In addition to this suspect is also under investigation for an unrelated sexual offence.</p>
18/01/2022 20:49	Bail - C/Sgts determination	Sgt 37 1892 DOVE	<p>I am the Custody Officer currently having responsibility for this detainee. 18/01/2022 21:12	Free Text	Sgt 37 1892 DOVE	Further to bail information previously; Outstanding enquiries for Sussex OIC are: - Suspect device to be forensic examined. - Statement from prosecution witness. - Third party material to be sourced/reviewed.
18/01/2022 21:28	Bail - Insp determination	T/Insp 37 1450 DAVIES	I have considered the presumption under pace that all persons released without charge should be released without bail and have decided to authorise bail for the following reasons. I have discussed this investigation with the custody officer and it is clear that further enquiries are required for this case to meet the threshold to ask a prosecutor to make a charging decision and that these cannot be conducted within the current period of detention. Forensic examination of seized digital devices which I believe may contain content which will either prove or disprove the defendants involvement in the alleged offence or other similar offences. Further witness statement and third party material to be sourced and reviewed Bail in this case is necessary to safeguard the victim and police have a positive obligation to do so under ECHR. Authorisation is necessary under article 8(2) of the European convention on human rights – right to respect for private and family life, if it is: For the prevention of disorder or crime.. Imposing these conditions pre-charge also means that the protection of the victim will continue post charge, because conditions cannot be attached to a postal requisition The bail conditions proposed are designed to prevent contact with the victim including at places where they will routinely be found, including the home address and restrictions on contact via other means. I consider the bail conditions proposed to represent a necessary and proportionate control measure to safeguard the victim in this case Authorisation is proportionate as: <ul style="list-style-type: none">• What is being done is not arbitrary or unfair• The restriction is strictly limited to what is required to achieve a legitimate public policy• The severity of the effect of the restriction does not outweigh the benefit to the community that is being sought by the restriction• Any restriction must be proportionate to the legitimate aim being pursued I have not been made aware of any representations by the DP or their legal representative.
